

Whatsapp

What is Whatsapp

WhatsApp is a messaging app owned by Meta that allows users (13+) to send text, voice, and video messages, make calls, and share media, documents, and locations, all using an internet connection

Privacy Settings

Whatsapp has the following privacy settings -

Last seen online
Profile photo
About
Status
Read receipts
Silence unknown callers

You can set these features to Everyone, My contacts, My contacts except... and Nobody

Location Sharing

WhatsApp gives you the ability to share your device's location with other users

This can be turned off in settings

Sharing Personal Information

Ensure you remind your children that they shouldn't share private information including -

- names, phone numbers, links to other social media accounts or their school
- locations
- other people's personal information
- links to join private group chats
- photos of themselves including indecent images

Further information

Reporting and Blocking

You can report problematic content to WhatsApp. You can also block a user to stop all contact

Group chats

Whatsapp has the ability for users to be added or create group chats, if your child is added into a group chat with people they don't know that will give that person the ability to chat with them.

You can't always control if you're added to a group chat; but remind children that they can always leave whenever they want to or block unwanted contact

You can mute the group chat without leaving the group, this stops notifications but still allows you to check in when you want.
